from schools to the military and from class structure to cultural diversity all individuals function within complex social systems that shape them and are in turn shaped by them this text introduces students to these broader social contexts within which human behavior occurs and how a community's social settings may promote or deter people in maintaining or achieving personal health and well being johnson and rhodes use seven basic theoretical perspectives as the frameworks to explore how clients are impacted by social institutions and social structures keeping up to date with

emerging societal trends and changing environmental contexts is important and human behavior and the larger social environment provides readers with the tools necessary to use their knowledge to provide appropriate interventions at all levels of practice as well as promote social and economic justice this book offers complex concepts in a simple format allowing students to analyze the relationship between individuals and various systems and better retain and apply their knowledge as they prepare to engage with clients and client systems

promotes critical thinking through extensive review and analysis of macro level systems and structures highlighting both the positive and negative impacts they have on individuals and families avoids overwhelming students with the multitude of theories used to explain large systems by using the same structure in each chapter helping students mentally organize material in a way that helps them apply the knowledge to other social work courses fully supports the "person in environment" orientation by moving away from an over emphasis on individual development toward an examination of contextual issues that more fully explains the challenges routinely encountered by social workers thoroughly examines the social institutions that impact social workers and their clients helping students make connections between current events and social work curriculum content chs 2 4 introduces content on social class racial ethnic minorities gender sexual orientation and disabilities in a way that encourages open mindedness in students while discouraging stereotyping chs 5 11 focuses on diversity and strengths in minority populations and social settings and addresses issues of oppression with sensitivity helping to develop students appreciation for the challenges faced by populations at risk chs 5 11

from schools to the workplace and from class structure to cultural diversity all individuals function within complex social systems that shape them and are in turn shaped by them this text introduces students to these broader social contexts within which human behavior occurs and how a community's physical and social settings may promote or deter people in maintaining or achieving personal health and well being johnson uses seven basic theoretical perspectives as the frameworks to explore how clients are impacted by social institutions and social structures keeping up to date with emerging societal trends and changing environmental contexts is important and human behavior and the larger social environment provides readers with the tools necessary to use their knowledge to provide appropriate interventions at all levels of practice as well as promote social and economic justice this book offers complex concepts in a simple format allowing students to analyze the relationship between individuals and various systems and better retain and apply their knowledge as they prepare to engage with clients and client systems

this addition to anissa rogers bestselling human behavior in the social environment expands the original text with new chapters on spirituality families and groups organizations and communities written in the compact concise manner of the original text the new chapters cover mezzo and macro contexts and offer additional material valuable to two and three semester hbse courses

this text focuses on the importance of organizations communities society and global influences in assessing human behavior in the social

environment it challenges students to probe the larger social context when viewing the complexities of human development designed especially to address the call for greater infusion of macro level content into social work education the book is ideal for courses on human behavior in the social environment and macro practice to facilitate the integration of theory and content the authors use different theoretical orientations to organize the chapters these are followed by an analysis of developmental issues a case example a section in which macro level influences are highlighted a reintegration of theory section and suggested activities

in living in the landscape arnold berleant explores new ways of thinking about how we live and might live in the landscapes that enfold us through the concepts of aesthetic engagement and environmental continuity he proposes a new paradigm that offers a holistic approach to the meaning of place and places of meaning in our lives although environmental aesthetics is linked in the popular mind to dramatic vistas and monumental landscapes the grand canyon for example berleant is much more concerned with the commonplace settings of everyday life he argues that our active appreciation of or aesthetic engagement with the prosaic landscapes of home work local travel and recreation plays a vital role in our discovery of hidden continuities as well as pleasure and meaning in the places we inhabit berleant begins with a general introduction to environmental aesthetics identifying the kinds of experience meanings and values it involves and describing its historical sources and the issues with which it is concerned in the rest of the book he spotlights new directions in the field as they relate to education community creativity and the sacred and provides an insightful analysis of negative environmental aesthetics throughout he is both thoughtful and entertaining as evidenced in his extended critique of the pop post modern environment of disney world berleant addresses issues commonly associated with the environmental movement e g preservation pollution control and quality of life but his study draws from a wide range of disciplines and for that reason should also appeal to scholars and students interested in art and aesthetics landscape architecture and planning urban and environmental design and cultural geography as well as environmental studies

professor snedden draws upon sociology in every phase of his interesting discussion of educational problems and his approach to these problems is sociologically sound he starts with the group concept and especially with the primary groups the family and the neighborhood working from the concrete facts of group life he discusses social forces and processes social values social efficiency and social progress then he comes to his formulation of the sociological foundations of education in general and of each school subject this book was written to aid in the training of teachers wherein its discussions of educational problems which are well balanced and carefully based upon established data will be especially useful
